inches

A color calibration chart featuring a ruler at the top with markings in inches (0 to 4) and centimeters (0 to 10). Below the ruler are 30 color patches arranged in a 2x15 grid. The patches include a range of primary and secondary colors, as well as grayscale steps. To the right of the patches is a table of colorimetric data (L\*, a\*, b\* values) for each patch. At the bottom, there is a section for 'D50 Illuminant, 2 degree observer' with columns for 'Density' and 'Observer'.
